Reason *
Incorrect Replacement Products

More Info
I dont believe that 3784 is a good substitute| The Specs on 3784 is 1/4HP vs 1/3 HP, 208-230 VAC vs 460 VAC and 3 speed vs 2 speed. I believe the better match would be 8945 Nidec and BDH1036 Regal.

SUBMIT FEEDBACK

SUCCESS! Thank you for sharing your valuable feedback. Our PIM and Product teams review the data and make any updates or changes as needed, usually relevant changes are live within 2 business days.
